

Sudhir Dhingra

Associate Partner & Director of Financial Data Operations

Sudhir has more than eight years of extensive experience in the financial services industry. Sudhir's deep knowledge of the financial services industry has made a direct impact on the awareness of finance basics among the members of the expanding offshore team.

While his primary responsibilities include providing strategic inputs for successful execution of financial data management projects, Sudhir's success as an effective leader of a large offshore team stems from his business analysis strengths in all financial software projects.

His articulation of difficult financial concepts explained in the course of training programs for both data analysts as well as a team of software engineers make learning an easy process for each new team member.

A rare combination of a technology degree blended with his finance degree imparts a distinct advantage to Sudhir in applying technology solutions in the finance domain.

Prior to ebusinessware, Sudhir worked in various capacities; as an independent Capital Market Strategist - providing consulting services on trading strategies, as a business analyst for (www.outlookmoney.com) - India's premium personal finance portal & as a retail banker with a renowned nationalized bank. Sudhir earned his B.E (Mechanical Engineering) degree from PEC, Punjab University. He also holds an MBA (Finance) from University of Rajasthan.
