Vipul's association with ebusinessware dates back to more than three years. Onboarding as a Software Engineer, Vipul's sound technical knowledge propelled his growth to an Offshore Project Leader within a short duration. His excellent communication skills led to his selection as an Onshore Project Manager to facilitate client interaction for some of the company's most prestigious projects.

Vipul's secret to success lies in his effective leadership qualities. His hallmark is to blend demanding working schedules with moments of much needed humor. His team members remember Vipul for the anecdotes that would spread endless mirth at coffee breaks. Rejuvenated, the team would return to onerous tasks.

Vipul recently crossed yet another milestone in his budding career. He won the laurels as the Manager- Technology Platform Migration Services (USA). Working with a large number of technologies ranging from COBOL to VB / ASP to .NET architecture including C# based implementations, his unique strength in the specialization of diverse technologies has enables him to actively participate in migration projects that involve extensive reverse engineering, diligent re-engineering exercises, and state of the art re-architecture projects. In addition to these much needed migration projects, Vipul also has a passion for architecting .NET based systems.

At ebusinessware, Vipul runs the Migration Practice working closely with Rajesh Abyankar, adding value to ebusinessware's

- .NET based Solutions
- Emerging and Entrepreneurial Practice
- Migration i.e. Reverse Engineering, Re-Engineering, and Re-Architecture Practice

Vipul holds a Bachelors Degree in Computer Science from University of Delhi. A quick learner, Vipul is committed to quality deliveries. A team player to the core, Vipul is the first one to pat the team on its back whenever a commendable job is finished.

Success Stories

The graphic features a silhouette of a person standing on a globe, with the words 'Success Stories' written in a large, light blue font across the globe.
